System message:  
The AESIP Portal now requires CAC Login.

Thank you,

Welcome to AESIP Portal

The Army Enterprise Systems Integration Program (AESIP) provides solutions for the total Army. Specific AESIP services include: end-to-end data management. In addition, the AESIP Project Management capabilities provide analysis.

**This is the AESIP/PLM+ Welcome Screen. To be able to access the PLM+ system, either for input or queries, you must complete a SAR at the LOGSA home page. The Detailed Navigation screen is located on the left and contains several menu options.**

**If you are not a ANS, you may request query capability. Access to DoDAAC, RIC and Contractor DoDAAC input requires additional permissions.**

## Pending DoDAAC Worklist

### The Pending DODAAC

Worklist screen will only show if there are transactions directed to an individual account. This is used mostly by LOGSA. Some ANSs who have granted permission for PBOs to input transactions to them will also have actions.

## Army DoDAAC Maintenance

The Army DODAAC Maintenance Request Menu includes the options below, along with a description of each menu option. Most actions done by the ANS will be done in this menu.

### ARMY DODAAC Maintenance Request Menu

Please use the menu on the left to select from the following options:

- Create New ARMY DoDAAC Request a New Army DoDAAC
- Change ARMY DoDAAC Request a Change to an existing Army DoDAAC
- Realign ARMY DoDAAC Request a Realignment of an ARMY DoDAAC to a different UIC
- Mass Realignment of ARMY DoDAACs Request a Realignment of multiple ARMY DoDAACs to a different UIC
- Reinstate ARMY DoDAAC Request a Reinstatement of an Army DoDAAC that has been deleted for less than 30 days
- Inactivate ARMY DoDAAC Request an Inactivation (Deletion) of an Army DoDAAC
- Request Status List List of DoDAAC Requests and their status

The type of change will determine what elements need to be addressed. If you are changing the TAC 1 address of a unit, without changing the city/state, be sure to check the BBP information. Does the new location have a different BBP?
